

verse #1

from east to west and
north to south, Peace is
what it's all about,
time after time, and
round and round,
we all must learn to stand
our ground.

Chorus: Peace all around,
time after time, it's
the only way that we'll
all be fine, let's come
together and make
things right, Peace all
around, time after time

verse #2

no more war and
no more strife, we must
choose peace in our
life, time after time
and round after round
let's take a stand and
make no sound

CORUS

Peace all around, time
after time, it's the only
way that we'll all be
fine, let's come together
and make things right,
Peace all around, time
after time

VERSE #3

~~Peace~~ ~~to make~~

Peace in your heart
and kindness is key,
to make the world a
brighter place to be,
be the one to break
the cycle of hate,
by radiating love and
never losing all that's
great.
